HARDAZ
RETAINING WALL SYSTEMS

FOR 50mm & 75mm TIMBER SLEEPERS

- Galvanised steel for longer life
- No fastening required
- DIY friendly

HARDAZ Retaining Systems provide a simple and easy solution for creating solid timber retaining walls. Each retaining post ensures a tight and secure fit for each sleeper, with no packing or fastening required.

All **HARDAZ Retaining Systems** products are made from galvanised steel, to guarantee long-life durability and strength.

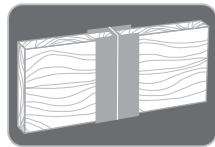

A recess in each post allows for adjustment to ensure you get the perfect fit every time and to compensate for future timber movement and shrinkage.

Our range suits both 50mm and 75mm wide sleepers and is versatile enough to build walls from one to three sleepers high.

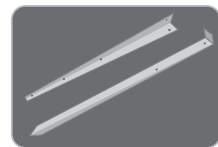

JOINERPOSTS

For use in straight line retaining walls.

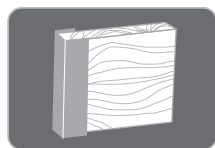

SLEEPER STAKES

For securing timber borders, such as garden beds.

END POSTS

For finishing the end of a retaining wall.

CORNER STAKES

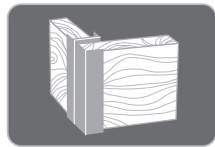

For external corners, where extra strength is required.

EXTRA STRENGTH

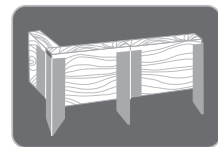

CORNER POSTS

For creating the perfect 90° corner.

LEFT & RIGHT HAND PEGS

For light duty retaining wall support.

FLAT STAKES

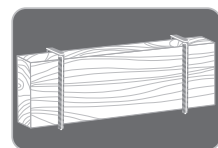

For joining straight runs, where extra strength is required.

EXTRA STRENGTH

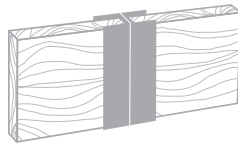

SUPPORT PINS

For light duty garden beds, sand pits etc.
